In contemporary society, what affects (写 what 的时候默认都是单数，所以三单) children’ s behaviors has aroused a heated debate. ✓ Some individuals champion that it is the content shown on~~by~~ TV (官方注释：While "shown by TV" is also understandable, "shown on TV" is more common and idiomatic. The phrase "shown on TV" refers to content that is being broadcast or displayed via television.) which plays (前面 content 是单数，三单) a significant role in adolescents’ behavior, while others hold a different opinion that ~~the figure of time costing on TV~~the time spent on TV (官方注释：No, the phrase "the figure of time costing on TV" is not grammatically correct. The phrase lacks clarity and the word "costing" is used incorrectly. It should be rephrased to be clearer. For example, one could say "the time spent on TV, as measured by [some figure]" or "the cost of television airtime".) is the main factor. Based on my observation, I predominantly incline~~d~~ (避免突然的时态变动) that the information provided by social media primarily has an important effect on ~~kids'~~children's (Avoid “Kid” and “Kids” in Formal Contexts. Formal academic writing should be polished, meaning it should look like the writer chose words carefully. “Kid” and “kids” sound casual when used in academic writing. Write “child” or “children” to make your essays look more polished.) style of dealing with things.

如果是我，真考的时候我这段会写孩子看电视的时长在某些情况下也会对他们的行为产生影响，因为毕竟这道题对立的两个点是内容 vs. 时间。

First of all, children can easily acquire special knowledge such as news by

watching news programs on TV, which makes (前面的 which 指代的是逗号前面的一整件事，是单数，所以后面三单) them keep up with the social trend (trend 是单数可数名词，要么后面加 s，要么前面 the 表特指，要么 a 表泛指) and expand their horizons. Additionally, a study~~research~~ (官方注释：If you find yourself writing "a research" or "in this research," change it to "a study" or "in this study." Note that "research" is a mass noun.) from Tsinghua University illustrate~~d~~s (有结果的研究这里就应该是一般过去时了) that it is not sufficient for young people to just receive education from schools and parents - they need social education. ✓ As a consequence, various meaningful resources are beneficial to the development of children.✓

Nevertheless, there are potential issues that some programs show a number of horrible violence and insane opinions. ✓ ~~And considered~~Considering (雅思写作一定一定要全力避免 And 引导一句话，另外的雷区还有 But, So 等，会给考官小学生习作的感觉) that most children lack ~~of~~ (lack 直接用作动词的时候是不要 of 的) an (后面是元音) ability to distinguish what is right from wrong~~ things~~ (固定搭配：Yes, it is grammatically correct to say "distinguish what is right from wrong." The phrase uses the verb "distinguish" correctly with the preposition "from" to show the separation between two concepts (right and wrong).), they tend to emulate these behaviors from charming evil characters shown on~~by~~ television. ✓ It means harmful content could also have a negative influence on the young generation.✓

On the other hand, if young people lack ~~of~~ proper supervision by parents and schools, they will easily ~~indugle~~indulge in watching TV and neglect the time they spent on it, which ~~are~~can (are 的话后面应该 ing，且语境不合适) get in the way of their growth.✓ According to an annual report from the Ministry of Education of China, 10% of people were addicted to watching TV for —over 4 hours daily ~~when they were kids~~during their childhood (原句没问题，分享一个更自然地道的表达). However, it could be dealt~~dealed~~ with through establishing related restrictions and laws by TV enterprises.

In a nutshell, I still hold the view that the content of social media has a fundamental impact on children,✓ followed by the time children spend. ✓ But more importantly, how to retain~~keep~~ (原词没问题，分享一个高级的) the advantages of watching TV (一定要点题，前面咱也没提 watching TV) and throw away its disadvantages is what society really needs to think about.

TR: 6.0-7.0? (第二段的内容不好定夺，一定会有考官觉得应该略短写时间对孩子的影响，但有的考官会觉得咱们这样写没什么大问题，所以这里给一个分值范围)

CC: 7.0 (各种连接手段使用熟练，段落分配合理，真考望保持)

LR: 7.0 (有冲分词，基础词使用大部分时候合适，词组搭配老练，保持)
